

**EMMA I. FOULKES**  
*Fine Art Collector & Artist*

DeRosa Studios is a contemporary abstract art studio creating original acrylic works inspired by geological movement, fluid dynamics, and natural energy systems. Each piece explores the tension between structure and flow, using layered pigments, metallic elements, and in select works, black-light reactive materials to create depth and visual transformation.

DeRosa Studios will be showcasing a curated selection of original abstract acrylic paintings, including works from the Emerald Tectonics, Blue Tides, and Mantle Heat collections.

The collection features high-gloss, gallery-ready pieces that explore geological formations, oceanic movement, and volcanic energy. Several works include black-light reactive pigments, offering a unique dual-viewing experience under standard and UV lighting.

All artwork is original and available in a range of sizes, with certificates of authenticity provided for each piece.
